Jones & Bartlett Learning, LLC is committed to promoting and improving accessibility of all its products as specified in Section 508 of the Rehabilitation Act of 1973 and the World Wide Web Consortium Content Accessibility Guidelines (“WCAG”) 2.0 Level AA.

Navigate 2 is Jones & Bartlett Learning’s LMS platform and contains courseware and learning material for the majority of its products. Extensive user experience/user interface research has been taken into consideration with the development of Navigate 2. For example, features include:

- User-definable screen and font size controls, via browser controls, that can be adjusted on a session-by-session basis.
- Content is conveyed independently of color.
- Low contrast visual components with the background, and a colorblind-friendly theme, as well as nonuse of blinking or flickering objects.
- Responsive design compatible with most mobile devices with exceptions.
- Efficient and intuitive page and site navigation.
- A standardized focus halo across standard browsers for efficient tabbing through most clickable objects with exceptions.
- Clear and simple content organized to enhance user experience.
- Enhanced support of assistive technology readers with exceptions.
- Features to set individualized time limits that allow for instructors to configure a student’s profile to permit time extensions on an assessment-by-assessment basis.

While Navigate 2 and other Jones & Bartlett products have been built with several accessibility features, continued steps toward achieving material accessibility compliance are ongoing. Jones & Bartlett Learning has a dedicated team assigned to develop and test additional usability and accessibility features, and all new products that Jones & Bartlett Learning is developing are being designed with a focus and priority on accessibility. Jones & Bartlett Learning will fully cooperate with each customer to ensure that its students and faculty are afforded all practical accommodations to access our learning resources.
