Issue Description	Current Status (Open, Closed, I/P)	Disposition (Planned, Deferred, I/P)	Remediation Timeline	Available Workarounds	Comments
Product icon/link missing label	Open	Planned	Q2, 2021		
The comparison graph is not designed for keyboard input.	Open	Planned	Q2 2021	Comparison graphs can be generated for countries that are adjacent to each other in the list, but country and data selection functionality is limited.	
The "Listen" widget has an accessible name of "play"	Open	Planned	Q2, 2021		
Headings (h3) in the right sidebar of country / state / province reports do not meet minimum color contrast standards.	Open	Planned	Q2, 2021		
Infographics do not have text-based or accessible alternatives	Open	I/P	TBD 2021	Equivalent information is contained in other parts of the product.	
List items in the right sidebar need parent container (i.e. <ol>)	Open	Planned	TBD 2021	N/A	
Image slideshow photos missing alt text	Open	Planned	2022	Text summaries for the slideshows that describe the context for the photos are accessible.

There is no message for users that have their Javascript turned off indicating that the site will not work properly unless it is enabled.	Open	Planned	2022		
Reflow <ul style="list-style-type: none"> <li>At 400% zoom, videos require horizontal scrolling to see the entire video.</li> <li>At 400% zoom on the photo gallery and slideshows, some icons slightly overlap with text.</li> </ul>	Open	Planned	2022		
The image photo gallery does not have an intuitive focus order.	Open	I/P	TBD		
Videos in CultureGrams do not have audio descriptions.	Open	Deferred	N/A	N/A	
In the map country / state / province selection pages, the colors of neighboring countries do not always meet minimum color contrast standards.	Open	Deferred	TBD	There is an alternative selection method in the form of a list below the map.	Workaround provides equivalent functionality.
Foreign language vocabulary is not specified with code.	Closed	Deferred	N/A	English language content surrounding the vocabulary defines the meaning of the word and the language of origin.	
The native voices feature, which allows users to hear native pronunciations of foreign terms, has no text equivalent.	Closed	Deferred	N/A	N/A	Since the feature is based entirely on aural experience of the written words, it is unclear what an accessible (non-audio) alternative would be.
