Kaplan Test Prep is committed to accessibility to ensure that all students have the opportunity to achieve. At Kaplan, we work with our partner schools to find flexible solutions that work for individual users. Accessibility testing is ongoing as our products evolve. This VPAT template lists the supporting features that are available with the Kaplan Nursing products as of September 2016. It is not meant to represent that the products have all supporting features. Students, Faculty, and Administrators are encouraged to contact our Accessibility Lead with any questions at special.services@kaplan.com.

Summary Table Voluntary Product Accessibility Template
<i>Criteria</i>
Section 1194.22 Web-based Internet Information and Applications
Section 1194.24 Video and Multi-media Products
Section 1194.31 Functional Performance Criteria
Section 1194.41 Information, Documentation and Support

**Section 1194.22 Web-based Intranet and Internet information and Applications - Detail
Voluntary Product Accessibility Template**

Criteria	Level of Support & Supporting Features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supports	The Syllabus image content has alternative text.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Supports with exception	Orientation and NCLEX Review Prep Videos are captioned
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supports	Program does not rely on color alone
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supports	The Syllabus content can be read without a style sheet
(e) Redundant text links shall be provided for each active region of a server-side image map.	N/A	Server side image maps are not used
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	N/A	Client side image maps are not used
(g) Row and column headers shall be identified for data tables.	Supports with exception	Tables of assessment results have column headers.
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	N/A	Data tables are not nested
(i) Frames shall be titled with text that facilitates frame identification and navigation		Untested

<p>(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.</p>	<p>Supports</p>	<p>No flashing content on the site</p>
<p>(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.</p>		
<p>(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.</p>		
<p>(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with 1194.21(a) through (l).</p>	<p>N/A</p>	<p>Applets and plug-ins are not needed</p>
<p>(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.</p>		
<p>(o) A method shall be provided that permits users to skip repetitive navigation links.</p>		
<p>(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.</p>	<p>N/A</p>	<p>There are no timed elements in syllabus content</p>

**Section 1194.24 Video and Multi-media Products – Detail
Voluntary Product Accessibility Template**

Criteria	Level of Support & Supporting Features	Remarks and explanations
